Supplemental Questions:

Use of Artificial Intelligence (AI) is not permitted when answering the essay questions below. GFRP reserves the right to submit

written answers to AI detection programs (e.g., iThenticate). Suspected violations will be dismissed from our selection process.

Essay questions

- (REQUIRED) The Global Food Research Program (GFRP) focuses on improving health outcomes by researching and evaluating nutrition and food policies (e.g., federal food assistance programs, food marketing, labeling, and taxation), both domestically and globally. Describe why you are interested in exploring nutrition and/or food-related research and how this aligns with your career and academic goals. (Maximum of 500 words)
- 2. (REQUIRED) Economic, political, and social factors contribute to differences in health outcomes, within and between countries. How will you apply your FERN summer training to address these factors in order to reduce these differences in health outcomes? (Maximum of 250 words)
- 3. **(REQUIRED)** Explain how your academic background, strengths, and lived experiences might contribute to nutrition and/or food-related research. (Maximum of 250 words)
- 4. **(REQUIRED)** What is a specific topic you would like to explore during your internship? (Maximum of 250 words)
- 5. **(OPTIONAL)** Is there anything else you would like us to know as we consider your application? (Maximum of 250 words)

Demographics questions

- 1. Expected graduation month and year. (Reminder: You are not eligible to apply if you are expected to graduate before December 2025).
- 2. Current year in undergraduate program.
